Even teachers were the essential part of this drive. As a part of this Cleanliness Drive, we all cleaned the whole school premises.

We started the programme by cleaning the corners of the school lawn. Then the teachers and students followed suit. Some of us picked brooms and started our job. Some of the students did the dusting of the rooms. And others went to the play ground and started picking wrappers lying scattered there. After collecting them they threw them in to the dustbins.

Students were made aware of the importance of sanitation and keeping our home, locality and city clean. It was a unique experience for all of us. We were curious to be the part of this great drive that could have transformed the face of our country forever.
